Scholastica Mutuku
Software Engineer,
ICT Authority of Kenya
20th July, 20
26

To Whom It May Concern,

I am pleased to recommend Pavis Mugo Muruga, who successfully completed a 13-week industrial attachment at the ICT Authority of Kenya under my supervision from 4th May 2026 to 31st July 2026.

During the attachment, Pavis demonstrated enthusiasm, commitment, and a strong willingness to learn. He enhanced his practical skills in Python, Django, and ICT support services. He applied these skills effectively by participating in ICT support activities and developing a Library Management System and an ICT Asset Management System and a GBV system.

Pavis consistently displayed professionalism, excellent problem-solving abilities, and a positive attitude towards assigned tasks. He worked well both independently and as part of a team, communicated effectively with colleagues, and showed the ability to quickly understand new concepts and technologies. His dedication and eagerness to deliver quality work made him a valuable member of the team throughout his attachment.

I am confident that Pavis possesses the technical competence, integrity, and determination. I therefore recommend him without reservation for any opportunity that will enable him to further develop his knowledge and skills. Thank you for considering this recommendation. Should you require any additional information, please feel free to contact me at scholastica.mutuku@icta.go.ke or 0741625513.

Sincerely,

A handwritten signature in blue ink, appearing to read "SM", enclosed within a light blue rectangular box.
